

Mechanical tools

Fitting Tool Kit FTN333

Minimize the danger of damaging the bearing

The NSK bearing fitting tools are designed for the fast, precise and secure mounting of bearings with bore diameters from 10 to 50 mm. The right combination of impact rings and impact sleeves makes sure that the mounting forces never go through the rolling elements of a bearing.

- › Impact rings are made of extremely shock-resistant material
- › Even power transmission to the bearing rings due to the special construction of the impact rings
- › Nylon double-sided hammer head prevents damage effectively
- › Also suitable for the fitting of bushings, seals, pulleys, etc.
- › Suitable for a wide range of bearing sizes
- › Impact rings and impact sleeves are also available individually
- › Dead blow hammer FTN333-H included
- › No mechanical damage of the bearing during the cold mounting process

Bearing Puller Kit BPN62

Easy dismounting of ball bearings in blind housings

The toolkit BPN62 enables in many cases easy dismounting of ball bearings without dismantling the shaft. It consists of 6 puller arm sets and 2 supporting spindles and is suitable for deep groove ball bearings from 10 to 100 mm shaft diameter.

- › 6 puller arm sets and 2 spindles in a display case weighing only 3.2 kg
- › Hinged puller arms for power transmission to the bearing
- › User-friendly because of the elastic locking ring, which keeps the puller arms in the right position
- › Puller arms made of high quality steel
- › Selection chart for deep groove ball bearings inside the case
